MANGALORE.

MINISTER FOR PUBLIC WORKS
21 NOV 1952
GOVT. OF MADRAS

Hon. Sri N. Ranga Reddi,
Minister for Public Works,
Government of Madras,
MADRAS.

100345

Sir,

Sub:- Unemployment problem in South Kanara District.

In 1947, when the Prohibition was introduced, the Government had assured that the people engaged in tapping toddy would be absorbed in the Public Works Department, specially on road works. Most of these ex-tappers are employed by local contractors for breaking stones for road works, in our District, especially in Mangalore and Puttur Taluks.

Now, I find that a large number of labourers are brought from outside Districts for breaking metal and laying the roads. This shows that the concerned Department has neglected the promises given by the Government.

I therefore request you, in the interest of the public, to enquire into the matter and as far as possible insist on absorbing local labourers to avoid unemployment in the District.

Thanking you for your kind enquiry and early attention,

Yours obediently,

B. R. Kerkara
General Secretary
